

# Sign up for telemedicine

Doctors are making house calls again, but now it's by HIPAA-secure video, phone, and mobile app. With telemedicine from MDLIVE, you have 24/7 access to a U.S. board-certified and licensed primary care doctor who can treat non-emergency medical conditions such as:

- Colds and flu
- Allergies
- Asthma
- Pink eye
- Ear infections
- Sinus problems
- Respiratory infections
- Joint aches and pains
- Vomiting and nausea
- And more

Using MDLIVE is a convenient option when it's not possible to visit your doctor's office, retail clinic, or urgent care center. Plus, it's more cost-effective than visiting the ER for an illness that's not an emergency. Check your plan to see how telemedicine is covered.

**Don't wait until you're sick — activate your account now!**

You have three ways to register:

- Download the MDLIVE app on your smartphone
- Visit [mdlive.com/ibx](https://mdlive.com/ibx)
- Call **1-877-764-6605**

MDLIVE is an independent company providing telemedicine services for Independence Blue Cross. Services are currently not available in the state of Kentucky and availability may be subject to change.
