

Ramp Health™ Comprehensive Healthcare Everywhere

Since 2002, our mission has been to transform the healthcare industry by helping our clients take their population's health and safety outcomes, user experience, productivity, and engagement to new heights. We accomplish this through a relentless commitment to providing high quality, clinically rigorous healthcare services that are more accessible, affordable, and tailored to meet each customer's unique needs.

Our products and services portfolio provides solutions across the full continuum of care from prevention and wellbeing to robust clinical capabilities. We offer customized services including health, safety and injury prevention coaching, flu shots and other immunizations, health screenings, diagnostic testing, basic primary care, nurse and healthcare staffing, mental health, emergency response, and much more.

Convenient on-site clinics providing direct access to care such as health screenings, primary care, immunizations, and health education.

Proprietary technology that aggregates a variety of data inputs to deliver robust analytics and a personalized experience for individuals and organizations.

Comprehensive and customized health and safety services to meet the unique needs of every organization and their people.

Integrated solutions delivered by our in-house staff to support your wellbeing, clinical, safety, and digital health needs.

How We Do It

Our programs are designed with clinical rigor and decades of experience to optimize health outcomes. We combine a full range of clinical and wellbeing capabilities to provide more effective and integrated solutions that produce measurable results, at a lower cost. Our results include industry leading employee engagement, population health risk improvements, workplace injury reductions and employee satisfaction. We service all 50 states and offer customized and convenient care wherever, whenever, and however you need it.
